Best Practice 1: Student Profile Mapping

Objectives:

To determine the abilities of students in an objective and quantifiable manner and identify the slow and advanced learners so that appropriate support can be provided by the institution.

The Context:

Students often face diverse challenges with respect to their skill attributes: while some may belong to economically backward families and have access to limited resources; some may be intellectually bright or slow irrespective of their economic status; others may have different skills, emotions and behaviour. A systematic assessment of these attributes of the students may help in providing an insight into their strengths and weaknesses. The profile mapping exercise enables the institution to hone the students' strengths and overcome their weaknesses.

The Practice:

- Students need to login with their login ID and password and answer an online questionnaire.
- Scores on 'General Quotient (GQ)' and 'Empowerment Quotient (EQ)' are calculated on the basis of the answers provided. The General Quotient comprises of Academic score, Intelligence score and Knowledge score. The Empowerment Quotient assesses different types of abilities. It also makes a comparison of the particular student in comparison with his/her peer group. Finally, a weighted average of GQ and EQ gives the final score, which represents the capability of the student.

Your gQ and mQ in comparison to your Peer Group:

How to Appreciate the Profile Map

First look into your

- **Academic Score** – reflects how good you are in your studies
- **Knowledge Score** – reflects how much you know
- **Intelligence Score** – reflects how good you are in solving problems

If these three scores are high your "general quotient" will be satisfactory

Then try to identify your propensities

- **Propensity to Accept Tasks** – tendency to believe on your own abilities which allows you to accept any task given to you
- **Propensity to Think** – tendency of applying your mind to any given task and seek solutions to such tasks
- **Propensity to Communicate** – tendency to receive other people's thought and also sending your thoughts to other people, in different situations and through diverse media
- **Propensity to Use Tools** – tendency to make use of tools towards fulfilling your functional requirements and be a task enabler

If these four propensities are high your "empowerment quotient" will be satisfactory.

KALYANI MAHAVIDYALAYA

COMPETITIVE EXAMS

Life is a race...if you don't run fast...you will lose the game...

Introduction: To prepare a student for this challenging path, the institution has developed an online portal for competitive examination known as Entry-in-Service.

1. An online portal linked to college website that can be accessed by students through their student ID to prepare themselves for competitive examinations.
2. The mobile friendly app provides model questions on logical reasoning, general knowledge, mathematics and English, along with answers and explanations.
3. Regular offline classes are undertaken as mentioned in the college timetable for a one-to-one grooming to show them the entire process of the examination and address their personality development.
4. Final year students often lack awareness regarding ways to prepare themselves for Competitive examinations.
5. Approximately 48000 questions at present can be solved without purchasing any personal books or taking admission in specialized coaching.
6. When students are newly admitted to the College, they are explained about this system in an orientation programme.

Objectives:

1. It does not only judge the pre-existent talent of students but nurtures their development and management skills
2. It exposes them to a wide variety of available choices through providing them with a vast knowledge bank including questionnaire on English language, General knowledge, logic and reasoning, basic mathematics and other learning skills
3. The wide-ranging repository enables them to identify how to approach various job opportunities beyond their immediate fields of study like banking, insurance sectors, railways, teaching, other public service examinations along with vocational courses so that they may identify their suitable talents and excel in the relevant fields
4. The portal includes evaluative questions in test examinations to be completed in a time-bound manner.
5. The offline classes encourages students to work in team-based work and develop peer management skills.
