## **Report on "ICT Course on LaTeX Typesetting"**

**Organized by:** Department of Mathematics, Kalyani Mahavidyalaya

**Duration:** December 11-17, 2020

### **Overview:**

The LaTeX typesetting course was a 7-day program offered by the Department of Mathematics, Kalyani Mahavidyalaya, to enrich students' academic pursuits beyond conventional university courses. The course aimed to equip students with essential skills in document preparation using LaTeX.

### **Course Details:**

Number of participants: 48

Course duration: 7 days (December 11-17, 2020)

Faculty members: Dedicated faculty members from the Department conducted the classes

Cost: The course was provided free of cost to students

### **Success:**

48 students enrolled and completed both theoretical and practical components

End-of-course examination held on December 20, 2020, saw all 47 students passing with distinction (A grade)

### **Feedback and Future Enhancements:**

Student feedback will inform future iterations of the course to ensure its ongoing relevance and effectiveness. Continuous improvement is a top priority to meet students' needs.

### **Appreciation and Commitment:**

Sincere gratitude to the college authority for providing valuable opportunities for skill enhancement and holistic development of the students.

### **The outcome of the Programs:**

After completing the course, students will be able to use various types of computer applications to solve different problems using programming skills.

In conclusion, the "ICT Course on LaTeX Typesetting" was a resounding success, with all participants completing the course with distinction. The Department of Mathematics remains committed to offering valuable opportunities for students' skill enhancement and academic growth.

## Course Module

### Module-01: Introduction to the course and Installation

Installation of Texmaker /TeXstudio and MikTeX, Class and packages, Latex programming and commands, sample packages, Error messages: Some sample errors, list of LaTeX error messages.

### Module-02: Formatting of Output document

Fonts, symbols, indenting, paragraphs, line spacing, word spacing, titles and subtitles, Document class, page style, parts of the documents, table of contents, Command names and arguments, environments, declarations, Theorem-like declarations, comments within text.

### Module-03: Mathematical formulae

Mathematical environments, math mode, mathematical symbols, Graphic package, multivalued functions, drawing matrices, Tables, tables with captions, References to figures and tables in text.

### Module-04: Drawing with LaTeX

Picture environments, extended pictures, other drawing packages, Presentation using Beamer, Preparing book, project report in LaTeX.

Sl. No.	Modules	Course Outline	Required Hours
1	Module-01	Introduction to the course and Installation	8 Hours
2	Module-02	Formatting of Output document	10 Hours
3	Module-03	Mathematical Formulae	10 Hours
4	Module-04	Drawing with LaTeX	7 Hours

### Course Objective:

**Creation of Scientific Documents:** Participants should be able to create well-structured scientific documents using LaTeX, including research papers, reports, presentations, and academic posters.

**Effective Mathematical Typesetting:** Participants should be able to typeset complex mathematical expressions, equations, and symbols accurately and elegantly using LaTeX's mathematical environments.

**Management of Citations and Bibliographies:** Participants should be able to manage citations and bibliographies effectively using BibTeX or Bib LaTeX, including citation insertion, citation styles, and bibliography customization.

**Collaborative Writing and Version Control:** Participants should be able to collaborate with others on LaTeX documents using online platforms such as Overleaf and manage document versions using version control systems like Git and GitHub.

**Presentation and Communication Skills:** Participants should be able to present their work effectively using LaTeX-generated documents, demonstrating clarity, professionalism, and adherence to academic standards.

**Critical Thinking and Problem-Solving Abilities:** Participants should develop critical thinking skills and problem-solving abilities through the process of learning and using LaTeX for scientific writing.

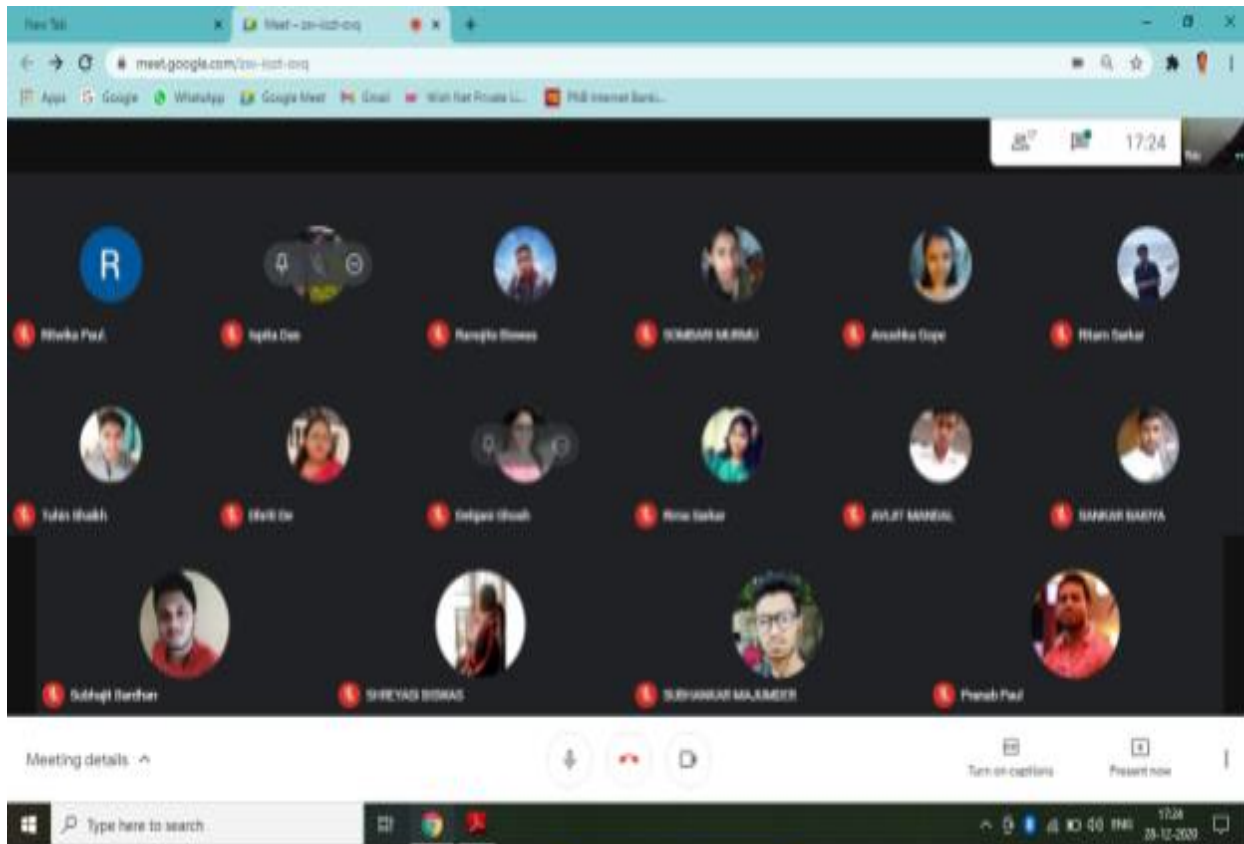

### List of Participants

Sl No	NAME OF THE STUDENTS	Regn No	Year of Regn.
1	ANKITA BHATTACHARYA	015586	2018-19
2	ANUSHKA GOPE	015587	2018-19
3	APARNA SIKDAR	015588	2018-19
