Reward Me Program

Dear Sir / Madam,

Your students are a reflection of the institution they represent. As they graduate from college and enter the corporate world, their success is the true measure of your success. We, at Procter & Gamble, want to help your students look their corporate best ensuring that they put their best foot forward every single day!

P&G is one of the largest consumer goods manufacturers in the world with some of the world's most loved brands such as Gillette, Pampers, Whisper, Ariel, Tide, Pantene and Head & Shoulders. Established in 1837 P&G has touched the lives of over 4.4 billion people around the world.

With the purpose of improving consumers' lives in small but meaningful ways P&G conducts a number of programs that reach out directly to the users of its brands. We conduct School programs to educate over 4 million young girls and their mothers about menstruation and female hygiene every year. Our Pampers hospital program reaches out to over 5 million new mothers to educate them on diaper usage and its benefits.

Today, we are here to talk to you about our University program that aims to provide your students what they need the most at this stage in their life – the confidence to do well in the real world. Your students will not only learn about how best they can groom themselves, they will also be able to clarify their doubts by interacting with our grooming consultants. Not just that, we will give out kits containing all these products to them.

P&G has been conducting this program for some of the most premier institutions in India including the IIMs. Now, it's your turn to bring the program to your students by hosting us in your college.

We hereby request your permission to conduct this program.

Thanks,

Procter & Gamble Hygiene and Healthcare Limited

REPORT ON FEMALE HEALTH AWARENESS PROGRAMME

Globally, approximately 52% of the female population (26% of the total population) is of reproductive age. Most of these women and girls will menstruate each month for between two and seven days. Menstruation is an integral and normal part of human life, indeed of human existence, and menstrual hygiene is fundamental to the dignity and wellbeing of women and girls and an important part of the basic hygiene, sanitation and reproductive health services to which every woman and girl has a right.

However, menstruation is too often taboo, and has many negative cultural attitudes associated with it, including the idea that menstruating women and girls are 'contaminated', 'dirty' and 'impure'. Menstruating women and girls are forced into seclusion, suffer reduced mobility and dietary restrictions, and can be prevented, through cultural norms, from participating in daily activities. Despite, or perhaps because of this, menstrual hygiene has been routinely ignored.

Considering this, we, the members of the Health Centre of our college, planned to organize an awareness programme on female health and hygiene, as in our institution a large number of female students are enrolled. The programme was organized in collaboration with Procter & Gamble Hygiene and Health Care Ltd. The programme was held on 06.08.2018 (Monday) at the Seminar Hall. Principal madam inaugurated the programme and the speakers from P& G interacted with the students and make them aware about different aspects of female health and hygiene. More than 350 female students of our college took part in the programme.
