### *About the webinar :*

*'Educational technology is deep - rooted to apply scientific knowledge for practical purpose of education. No one can deny that "COVID-19 has struck our education system like a lightning bolt and shaken it to its core." In this practical purpose educational technology has to emerge its scientific knowledge to ensure unstoppable learning and growth. Through out the world irrespectively developing or developed countries all are searching new thoughts to restructure the 2020's classroom. Nowadays, especially when India is also stepping largely toward digital teaching-learning the time demanding focus on the moral order of Information and Communication Technology along with its pros and cons. So, the webinar aimed to provide an online platform to reconceptualize educational technology with present day scenario.*
