CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

i. Departments hold meeting at the end of a semester in which topics in the syllabus are distributed to the teachers for next semester. Copy of syllabus allotment is provided to the Principal, IQAC, all teachers of the department and to students. ii. Departments prepare class routine based on Master Routine prepared by Routine Sub-committee and approved by the Principal. iii. Teachers prepare lectures and mode of teaching according to the syllabus allotted and classes available. iv. In-Charges of a department and the Principal supervise on classes being held according to the routine. v. Teachers use Central Library and Departmental Library for preparation and resources. vi. Teachers encourage students to use the libraries and internet resources - Inflibnet, e-books and e-journals - and journals, and provide e-resources through various means and personal interaction vii. Every department has separate whatsapp group for teachers and students for discussion on syllabus and counselling even beyond college hours viii. Departments also formulate the Mentor-Mentee system in format provided by IQAC, that records students' academic, social and cultural profile to track progress. ix. Teachers use various classroom teaching methods depending on subjects taught and requirements of the Department, like - a. Chalk and Blackboard method b. ICT-enabled teaching-learning method. c. Use of Softwares d. Use of Charts and Scientific models e. Class notes by teachers f. Group discussion among the students as class activity g. Encouraging Paper presentation by the students h. Ensuring that practical classes are taken through proper and adequate instrumentation facility. IQAC has recommended a central instrumentation facility for that purpose, and it is underway. i. Ensuring that Syllabi based field works, survey programmes and educational excursions are done in time j. Conducting Project work and dissertations k. Organizing seminars and special talks by experts l. Providing counselling through personal interaction and whatsapp groups beyond class hours m. Taking

class tests, Mid-term examinations, Mid semester examinations, and also viva-voce n. Arranging remedial and tutorial classes if necessary to meet the need of advanced students and students facing difficulty x. Departments take care of documentation, maintaining detailed record of the classes, assessments, project reports etc. xi. College administration keeps vigilant eye that Academic Calendar is followed. xii. College administration keeps on the results. Departmental Meetings are sometimes chaired by the Principal. xiii. Departments keep record of the different activities of the college regarding teaching-learning, and other activities in IQAC prescribed format xiv. IQAC supervises documentation process and that departments hold regular meetings and also take initiative in extension activities. IQAC seeks from departments report on departmental meetings and activities. Departments have own e-mail through which they take feedback from students. Analysed feedback report is then sent to IQAC in format prescribed by IQAC, along with recommendations of departments. All documents are maintained in both hard and soft mode. Departments also hold meeting with parents and take feedback on ward's experience in the College. Analysed feedback report is then sent to IQAC in format prescribed by IQAC, along with recommendations of departments.

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	No
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>The College did not have online feedback system for the Academic Year 2018-19. So, the IQAC devised a method to collect anonymous feedback from teachers, Non-Teaching Staff and students. 1. Feedback from Teachers IQAC created an e-mail to receive feedbacks. Another e-mail was created for sending feedbacks. Login and password of this 'sending' e-mail was shared with In-Charge of Departments through departmental e-mail, and the In-Charges were requested to share the login and password with all teachers of the department, or make arrangements to send individual feedbacks to the 'receiving' e-mail on a single day and scheduled time. IQAC informed all teachers that teachers could submit the feedback thus either disclosing identity or anonymously. IQAC drafts the feedback form consisting of 16 questions, and teachers are requested to tick any of the five options -Strongly Agree, Agree, Neutral, Disagree, Strongly disagree. There is also blank space for writing suggestions at the bottom of</p>

the form. After feedbacks are received, IQAC analyses the same by counting the number of ticks in each option. The suggestions are also noted. IQAC then discusses the analysis report in IQAC meeting, take action and submit recommendations to the College Authority. 2. Feedback from students IQAC asks departments to collect students' feedback in departmental e-mail in IQAC prescribed format, or in departmental meeting with students. The departments receive feedbacks, prepare reports following similar procedure as in case of teachers' feedback, discuss them in departmental meeting, and submit recommendations to IQAC. IQAC processes the recommendation-reports, discusses them in IQAC meeting, take action and/or submit recommendations to the College Authority. 3. Feedback from Non-Teaching Staff Feedback from Non-Teaching Staff is collected manually. IQAC provides a format similar to teachers' feedback format though with relevant questions for office and administrative staff, and Non-Teaching Staff fill up the same and submit anonymously to the Principal. After feedbacks are received, IQAC analyses the same by counting the number of ticks in each option. The suggestions are also noted. IQAC then discusses the analysis report in IQAC meeting, take action and submit recommendations to the College Authority. 4. Feedback from parents Departments hold teacher-parent meetings and collect feedback in that meeting. The feedback report is then forwarded to IQAC in IQAC prescribed format. IQAC processes the report and submits recommendations to the Governing Body through the Principal. The Principal sets 'Discussion on IQAC Report' as agenda in Governing Body at regular intervals. The IQAC Report contains recommendations from feedbacks and action taken on them. IQAC tracks taking information from the Principal after a Governing Body Meeting whether recommendations of IQAC thus submitted to the Principal and the Governing Body are implemented and decide on future action in next IQAC meeting.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The College considers all teachers as natural mentors and counsellors to students. In following the mentoring system, the College follows UGC Guidelines, particularly “A Guide to Student Induction Programme” 2018. In Departments where there are one or few Whole Time Regular Teachers, the Guest Lecturers assist him/her in mentoring. The IQAC with permission of College Authority schedules Induction Programme following UGC Guidelines at the beginning of Semester as far practicable. Student Induction Programme engages with the new students as soon as they come into the institution before regular classes start. At the start of the induction, the incumbents learn about the institutional policies, processes, practices, culture and values, and their mentor groups are formed. Teachers of a Department allot among themselves all students of a semester in equal proportion. Each mentor has mentee randomly selected from Roll Nos. For example, in a Department with 5 teachers and 100 students, each mentor forms a group with 20 mentee. The teachers are listed as per seniority. Teacher in Sl. No. 1 forms group with students of Roll No. 1, 6, 11 ... etc. Similarly, teacher in Sl. No. 2 forms group with students of Roll No. 2, 7, 12 ... etc. The mentors prepare two documents in IQAC prescribed format – i) for keeping record and tracking academic progress of mentee (ii) for keeping record of social and cultural profile of each mentee. After the central Induction Programme of the College, mentors meet with mentee and form a whatsapp group for regular communication, and even beyond college hours. The purpose of the mentor mentee system is to look after his/her academic and psychological wellbeing as also to give scope to his/her talents to flourish and also monitor class attendance and performance. Thus, the mentors using both formal and informal means of mentoring, tries to boost confidence, inclusiveness, gender sensitivity and social responsibility of students. The entire mentor mentee system is well documented by Departments and IQAC.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The College implements Continuous Internal Evaluation following Academic Calendar. Two Internal Assessments are mandatory for each Department. The Examination Sub-Committee conducts the Assessments centrally. From 2018-19, the College has initiated reforms based on recommendations of IQAC. Instead of the 2nd traditional Internal Assessment, project based evaluation system has been introduced in the Honours courses. Departments are also encouraged to evaluate students in non-formal and creative mode like through organizing debates, extempore, group discussion, seminar presentation etc. The college has plan to switch over to the MCQ for evaluation of the General course students. Assessment through OMR sheets for students in CBCS system has also been proposed.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

Academic Council prepares an academic calendar in accordance with the academic schedule of the University of Kalyani. Academic Council forwards the draft Academic Calendar to the IQAC for opinion and suggestion. IQAC discusses the draft and sends it back to the Academic Council. The Academic Council finalizes the Academic Calendar thus prepared through participative governance, with approval of College Authority. The entire process is completed before the commencement of every academic year and semester. Finally, the Principal has it published and distributed among the students, staff, and teachers of the college. The Academic Calendar clearly mentions day-wise and month-wise the list of holidays (national level holidays, state level holidays, local holidays and the institutional holidays), college examinations (Internal Assessment, evaluations), tentative dates of University Examinations and date of publication of results, and dates of other cultural programs like college sports, social etc.

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

Laboratory: Laboratories of Department of Physics, Chemistry, Botany, Microbiology, Molecular Biology Biotechnology, Computer Science, and Geography are furnished and maintained following scientific standard and subject-specific safety guidelines including fire safety and waste disposal. Facilities include ICT, computers, projectors, high-speed internet, whiteboard and screen. All departments maintain separate stock registers of consumables, glassware, assets and instruments. Instruments, Assets and Stock Registers are reviewed time to time by Teachers of respective Department, IQAC and College Authority. Interdisciplinary sharing of laboratory facilities is encouraged. Departments of Commerce and Economics, and Statistics and Mathematics have shared laboratories. Departments of English and Bengali have digitized language laboratory with audiovisual facility to aid the teaching of modern languages. All laboratories with equipments, instruments and computers are covered under Annual Maintenance Contract (AMC) by the college authority. Security is ensured with CCTV and Fire extinguishers. Library: The Library is fully computerized with the implementation of KOHA 3.2 software and equipped with Free WiFi. Fire extinguishers and CCTV cameras have been installed as safety and security devises. The Library sub-committee meets at regular interval to discuss on requisitions, and address and solve any problem faced by internal stakeholders. Departments submit requisition of books/journals before annual budget. The College Library has registered in NLIST Programme of INFLIBNET in 2017. Permanent ID and password have already been received for faculty members and have been successfully used by the members. Besides the central library facility, every department of the college is equipped with a Departmental library enabling students and teachers a quick access to the relevant and rare books of the respective subjects. Sports complex: The college owns a picturesque sports ground with natural grass with an area of 1200 sqmt surrounded by a protective fencing to facilitate preliminary level of athletic events. The Department of Physical Education possesses and maintains a wide range of outdoor and indoor sports equipment - all duly entered in Stock Register. For major sports events, the college relies on sharing the University sports ground. As an additional facility, the college has a Yoga center. Computers: Every department has computer and ICT based teaching and learning facilities. There is a central computer laboratory beside the computer science laboratory. All computers are maintained under a centralized AMC and are regularly updated with original antivirus and anti-malware software. The college organizes basic computer application training modules to enable students in computer use. Account of Computers is maintained dually through Departmental Stock Register and Central Stock Register. Departments, Internet Committee, Campus Development Committee and IQAC regularly monitor maintenance and recommend upgradation through IQAC. Classrooms: Class Rooms are well equipped with high and low benches for students, desk and chair for teachers, LED lights, large green boards etc. and are ICT enabled. All the lab-based departments have LCD projectors and Integrated Computers. Science departments have whiteboards. Departments, Campus Development Committee and IQAC regularly monitor the Class Rooms. Feedbacks from students on Class Room environment are taken into account for maintenance. The Students' Council also play positive role in the matter.

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

There is provision for students' representation in the Governing Body and different Committees and Sub-Committees as per University of Kalyani statute. As per Government Order, no election to Students' Council has been held for the past three years. As such, there is no Students' Council at present. However, students are included and involved in all students' related activities of the College. Teachers of a Department recommend names of students for participation in activities like College Social, Saraswati Puja, Sports etc. The Principal, in consultation with Teachers' Council, forms students' committees to help staff in conducting student related programmes. In absence of formally elected Class Representatives, teachers take opinion of students relating to affairs of the Department in departmental meetings. The College Authority and Teachers' Council ensure that voice of students is properly heard. On recommendation of

Departments, students volunteer as part of management in different programmes like seminars/conferences, extension activities, blood donation camps etc. Thus in 2018-19, though there has been no elected Students' Council, College Authority, IQAC, Teachers' Council and Departments have ensured participative governance with involvement of students.

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

The Alumni Association of Kalyani Mahavidyalaya is known as Kalyani Mahavidyalaya Alumni Association (KMVAA). The permanent office of the Association is Kalyani Mahavidyalaya, City Centre Complex, Kalyani, Nadia-741235. KMVAA has applied for registration in September 2017. The KMVAA has, in its first general meeting, has formed an Executive Committee with five office bearers it has passed, in its EC meeting and subsequent general meeting, its Rules, Regulations, and Constitution. It has an active Bank Account in Canara Bank, Kalyani. The Secretary, the President, and the Treasurer are the operators of the said account. All the financial transactions of the Association are carried out through its account. Since its formation, the Alumni Association has been actively taking part in the overall well-being of the college. Besides the Alumni association has already arranged an annual reunion of the ex-students of the college where the alumni came together and pledged to take part in the overall development of the college. The Alumni Association has met with present students of different departments variously and through active interaction taken stock of the immediate conditions of the departments. The association has conveyed the essence of the meetings with the suggestions to the administration and assured the students of their co-operation wherever needed. For instance, the laboratory facilities of the Microbiology, Biotechnology and Geography Departments were enhanced following the persuasion by the Alumni Association. The association has also organized career guidance programmes for the present students and has, as an outcome of the programme, stressed the need for a placement cell in the college. The proposal has been put across to the administration in writing. The Administration, on its part, assured the Alumni of their intent to set up a placement cell in the ensuing academic session. The Alumni Association has also proposed to the administration to start a Students' Welfare fund to help students financially on a regular basis from the ensuing academic session in consultation and collaboration with the administration of the college. Although it has taken 14 years to form a functioning Alumni Association of the college we are hopeful that the association has shown every possibility of turning out to be an asset to the college through their active participation.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

1. PRACTICE-1: INTERLINKED COMMITTEE SYSTEM ON CROSS-CUTTING ISSUES Teachers' Council nominates Cells, Committees and Sub-Committees consisting of teachers and staff at the commencement of Academic Year. Some committees have overlapping functions. The Governing Body is empowered to form Committees/Sub-Committees but ensures participative governance by generally approving recommendation of Teachers' Council. The Teachers' Council and such Committees/Sub-Committees advise the Principal on Academic, Administrative and Financial matters. Participation of students in Governing Body is ensured through General Secretary, Students Union. In absence of elected Students' Council, students' voice and participation are ensured through recommendation of Departments in consultation with students. On recommendation of IQAC, the different committees follow a policy of interlinking on cross cutting issues. For example, Campus Development and Internet Committee sometimes hold joint meeting on relevant issues. Decisions and recommendations of one committee are forwarded to another relevant committee for opinion and suggestions. Inter-linking of committees and cells and involvement of Non-Teaching Staff and students ensures decentralization and participative management. Case Study: As directed by the Govt., Online Admission had to be done entirely through online mode. The Principal and IQAC held meeting with all staff, Teachers' Council, Online Admission Committee and Academic Council regarding the matter. The recommendations of Online Admission Committee regarding filling up of vacancies, recommendations of Academic Council regarding Academic Calendar, and recommendations of all staff and Teachers' Council were channelized through Online Admission Committee and IQAC to Governing Body for final decision on the matter.

2. PRACTICE-2: APEX-BASE LIAISON IN NON-FORMAL MODE AND INVITEE SYSTEM The Principal maintains Apex-Base liaison in the hierarchical pyramid of the institution and encourages Participative Governance by holding All-Staff Meeting and All Teachers' Meeting time to time in both formal and non-formal mode. As per Government directive, erstwhile CWTT, PTT and Guest Lecturers are not members of Teachers' Council. However, Teachers' Council Meetings on general issues are sometimes held in the Staff Room in presence of internal and non-member stakeholders, they being valuable members of the college family. There are two Whatsapp groups - one for all faculties and the other for all staff - for communication beyond office hours. IQAC sometimes convene non-formal meetings with teachers to take opinion and suggestions on important matters. For example, some such non-formal meetings were held - i. on 25.08.18 and 28.08.18 with all In-Charges and Conveners of Cells/ Committees and Sub-Committees ii. on 29.8.18 with all Non-Teaching Staff iii. on 30.8.18 with all Guest Lecturers iv. on 3.9.18 with all In-Charges v. on 4.9.18 with all Conveners of Cells/ Committees

6.1.2 – Does the institution have a Management Information System (MIS)?

Partial

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Human Resource Management	Teachers are motivated to enhance teaching-learning skills and to participate in Refresher, Orientation courses, short term courses and workshops. Teachers' skill development programmes are organized by IQAC. One such programme organized was on 'Mentoring and Counselling'. Teachers maintain Academic Diary and submit Self-

appraisal to the Principal Non-Teaching Staff are encouraged to participate in computer training and software training programmes related to Tally and MS-office. Non-Teaching Staff's skill development programmes are organized by IQAC. One such programme was on 'Office Procedure and Information Maintenance'. CASH, Grievance Redressal Cell, Anti-Ragging Committee are functional Health check-up is organized for internal stakeholders

Industry Interaction / Collaboration

Some Departments organize industrial visits

Admission of Students

Admission of 1st semester students is done through full online mode. Admission is strictly merit based, and in strict adherence to Govt. Rules and also in matters of reservation. Refund policy is in place following UGC Guidelines 2018. All admissions in following semesters are also through online mode.

Curriculum Development

The College is affiliated to University of Kalyani, and follows Curriculum prescribed by the University. Departments conduct field work, industrial visit and educational excursion as part of curriculum. Other than mandatory Internal Assessment, the College has introduced mandatory Project work. Class seminars and extension activities are encouraged.

Teaching and Learning

Teaching-Learning is integrated process, and the College follows Learner-centric model. Teachers encourage interactive classes and lecture review. Other than use of library, teachers encourage learners to consult e-books and e-journals and online learning through wide access to internet facility. Learners are encouraged to attend seminars and class seminars and present papers. Mentors counsel learners. Departments have whatsapp groups with students for communication, counselling and providing information beyond college hours. Learner centricity is ensured through departmental meeting with students and receiving feedbacks.

Examination and Evaluation

The College follows continuous examination and evaluation method. Academic Calendar is followed for scheduling Examinations - both Internal Assessment and University Examinations.

	Other than scheduled examinations, Departments evaluate students through Class Test, mock test, group discussions and viva voce
Research and Development	The College has Research Body. IQAC and College Authority encourage teachers to engage in research, apply for MRP etc through funding agencies, attend seminar/conference to present papers in International/National/State Level Seminars, workshops and to act as resource persons. Incentive is provided to teachers for attending seminar/conference and presenting papers subject to rules framed by Governing Body on recommendation of IQAC and Research Body. Published research works of teachers are displayed in library. The College has plans to set up Incubation Centre.
Library, ICT and Physical Infrastructure / Instrumentation	Library with more space has been constructed at ground floor. Some Class Rooms are ICT-enabled, and further development is in progress. Wifi is provided free in the campus to encourage use of e-learning resources. Internet Sub-Committee monitors maintenance of internet bandwidth. CCTV, High mast light, fire extinguishers have been installed for security of infrastructure. New Class Rooms at ground floor on right wing have already been constructed, and construction of floors is in view. Development proposals are received from Departments, Teachers' Council, Campus Development Committee and Building Committee and channelled to College Authority through IQAC.

Students across the districts of Nadia, Hooghly, North 24 Parganas, access the college for their higher studies. These districts are mostly rural in character and are considered backward. Students generally hail from a weak socio-economic background, and display characteristics of

gender repression at the time of entry. The girls are found to be shy, introvert, non-communicative and often lacking in confidence. They suffer from a lack of decisiveness which leads to their shying away from college activities. These lead to their incomplete character building which affects the overall growth and evolution of the society and the nation. The Practice: In the initial stages the college found that forming such processes is easier said than done. The girls found it difficult to understand the underlying principles and benefits of such processes. They would often find it difficult to apprehend the necessity of looking beyond conventional teaching learning methodologies and classroom atmosphere. Moreover, there would often be social pressures that sought to limit the potential of the girls they would be married off and any extra-curricular activities would be discouraged. It was readily realized that an ivory-tower approach will not solve the problem. There should be an effective systematization in the form of a. Vision b. Discussion c.

Implementation d. Review and analysis of report. So the college undertook a mission to empower the female students of the college. After working out the mission, effective planning was done in a decentralized format which was discussed, revised and finally ready for implementation. The first step towards implementation was asking the teachers to bring about a change in their methodologies, especially in the classrooms. The teachers diligently took the mission forward by patiently asking the girls to participate more in the classrooms and beyond. Separate common room was built for the girls to give them space and freedom to allow them to communicate share their problems and find necessary solution independently. In the Students Council a definite percentage of seats were reserved for the girls. Among the office bearers of the Council, girls were given priority. This, the college felt, will ensure confidence, and build leadership abilities among the girls. To ensure regularity and avoid absence from classes and other activities a sanitary napkin vending machine has been installed in front of the ladies wash room. To foster health-awareness among the girls several lectures by different resource-persons were organized. To build gender sensitivity the boys were also asked to attend these lectures. Evidence of Success: This process has brought about a thorough change in the performance and outlook of the girls of the college.

Over the last three academic sessions the numbers of girls enrolled has increased. The performance of the girls over the last four academic sessions has also been excellent. In the cultural and sports activities too girls have excelled at various levels The different sub-committees of the students' council are headed by girls and they discharge their duties properly and effectively. Problems Encountered: In the initial stages of the implementation of the practice the college faced a number of problems: 1. In experience of the faculty and staff regarding sudden and unexpected situation and inability to find out immediate solutions to these situations. 2. Although several workshops and seminars were attended by the faculty and administration regarding empowerment of women, yet real situations vary widely in range and scope. Hence the administration had to look for innovative and spontaneous means to overcome these situations. 3. The incumbents themselves often proved to be resistant to these approaches owing to long-standing social conditioning and taboo.

Resources required for adopting such practice include- 1. A set of dedicated faculty and an administration sympathetic to the needs of the female students. 2. Physical facility 3. Adequate safety and security measures 4. A gender sensitive campus 5. An able leadership Best Practice-2 Title: Environment Friendly Best Practices for Sustainable Development Objectives: Keeping in view the strategic location of this institution in an industrial area in the planned city of Kalyani, the college authorities had long felt the need to adopt certain practices which would not only help to utilize the civic amenities and industrial resources to its maximum extent but also lead towards minimization of the extent of damage to the environment. With this goal, the following objectives have been set: (a) Best practice: HEALTH AND HYGIENE (i) Water

Quality Monitoring Freshwater is a finite resource, essential for even human existence. It has been unequivocally demonstrated that water of good quality is crucial to sustainable socio-economic development. The Department of Molecular Biology Biotechnology and the Department of Microbiology of our college monitors and analyses multiple facets of environmental health at campus. This protocol is a tool to ensure that an effective and consistent water monitoring program is in place on campus. The program also provides cocurricular hands-on, skill building opportunities for students, and continues to raise awareness about the importance of watershed health. Additionally, through these monitoring efforts, corresponding remediation activities are considered as a trans-disciplinary learning opportunity aligning with several academic programs and departments. This is done to ensure that all water systems on campus are maintained efficiently as healthy components. Parameters are so chosen that it can help to understand the physio-chemical as well as microbiological health of water. Testing procedures are selected on the basis of our available infrastructure. The water quality parameters for past 5 years is attached as an additional document. From the regular monitoring of water quality parameters, it can be observed that overall health of drinking water in campus is at par with BSI standards. Further enhancement of water quality like enhancing taste and to ensure no pathological contamination, water purifiers like Aqua guards were installed and regular monitoring was done. AMC are done and renewed yearly for proper maintenance of Aqua guards. As per TSS and TDS results, it was recommended to install iron filters along with Aqua guard. In due course i.e. in 2017 High end (institutional reverse osmosis water purification system) machine along with coolers were installed. (ii) Vending Machine Hygiene refers to the good practices that prevent diseases and leads to good health, especially through cleanliness, proper sewage disposal, and supply of safe drinking water. It refers to all those activities that are done for improving, preserving and maintaining sound health. For attaining the desired standards, sanitary napkin vending machine along with incinerator has been installed inside girl's toilet and female teacher's toilet. (b) Best practice: GREEN TRANSPORT Kalyani Shilpanchal is conceived primarily as an industrial area and it has numerous large and Small industrial units having contributions not only towards socio-economic development of the region but also in pollution load of environment. Increased demand of mobility has created massive growth in road transportation which in turn has increased traffic congestion, poor air quality, and range of other problems which require the development of alternative to growing reliance on automobiles. Cycling is amongst the most sustainable mode of mobility having zero dependence on fossil fuels and zero carbon emission. Keeping this in perspective, Kalyani Mahavidyalaya along with its NSS unit time to time campaign among students and staffs to use greener transport like bicycle and encourage to use public transports. As the college is very near to railway station, transport by railways is encouraged. (c) Best practice: PLASTIC FREE ZONE Plastic pollution involves the accumulation of non-biodegradable plastic products which adversely affect the environment. In our campus, there was large-scale littering of plastic articles like bags, cups, chocolate and snacks wrappers and plastic sheets. Also, there was lack of proper waste management system for these kinds of bio-non-degradable material. In this aspect, the college has taken the initiative to solve this problem in a phased manner. The usage of plastic articles cannot be stopped altogether, but certainly our college has found good ways of managing their disposal with cooperation from all the students and staff of the institute. To tackle this problem, several steps have been implemented immediately, and some are planned in the long-run. For example, there was a major shortage of dustbins in the campus. To reduce littering, dustbins have been placed within a distance of 100 meters from any place where students gather. Examples of such strategic points include the library, all exits and entrances to the main building and department blocks, the rear entrance, canteen. Signboards at several locations

along with dustbins are kept in the campus to motivate the students not to litter. This is also to sensitise the visitors to the campus that he/she is expected not to litter .NSS unit and Campus Development Cell of college arrange talk regarding the seriousness of the issue to make the students aware of the littering-discipline.

Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust Provide the weblink of the institution in not more than 500 words One Vision of the College with priority and thrust is to empower the students to face the challenges of lifeboth academic as well as personal. Though our College is located in the heart of a vibrant and developed city, Kalyani, however, it caters to the educational need of surrounding rural and developing areas. Many students come from families living in poverty or Below Poverty Line, and many are first-generation learners. For example, while the percentage of admitted and registered SC, ST and OBC students combined against General Category students is more than 50 in 2018-19 (1191 reserved category students against 1167 general students). A total of 862 students in SC category, 44 students in ST category, 91 students in OBC-A category and 194 students in OBC-B category were registered in 2018-19. Nine Divyangjan students took admission. While this picture is in no way any conclusive statement on demography, it nevertheless reveals the challenges of the College. The College Authority and faculties gladly take this challenge in positive spirit in the larger interest of society and nation. The reputation of the College has been sustained as evident from Demand Ration in Online Admission. A total of 11,349 applications were received in Online Admission 2018-19 for 2828 seats, with an average demand ratio of 4:1. In honours subjects, total 7347 applications were received against 1207 seats with demand ration of 6:1. In 2019-20 (applications received before June 2019), 9610 applications were received against 1207 seats in honours subjects, with a demand ration of 8:1. The data shows the growing reputation of the College. Under KalyaniMahavidyalayaFreeship Scheme, 302 students were granted concessions as Financial Support from the Institution in 2018-19. In 2018-19, Number of students receiving National Merit-cum-Means Scholarship are 332, KanyashriPrakalpa (K-2) are 571, and under West Bengal Minorities Development Finance Corporation are 150. In 2017-18, 480 students (223 male 257 female) appeared in final Part-III Examination in Honours subjects, and out of them 405 students passed (195 male 210 female), that is, 84. 103 students obtained First Class marks against 94 students in 2016-17. In a remarkable improvement in 2018-19, 126 students obtained First Class marks. In 2018-19, 499 male students and 448 female students appeared in Part-III Examination, and more than 90 students passed. 100 students passed in Political Science, Computer Science, Microbiology, Physiology and Accountancy honours. In 2018-19, 267 students from all Departments progressed to higher education. As informed by the Alumni Association, several ex-students of the College are working as Assistant Teachers, Probationary Officer and Clerk in nationalized banks, and Scientific Officer and Quality Analyst.
